

The **Manual HT** is a manual (non-electric) retractable projector screen that is made as an ideal solution for high-end commercial or home cinema applications. Specifically crafted for the European AV channel, it possesses the features expected from top-tier AV design. Among these is a “slow retract mechanism” or SRM for hands-free retraction. Its stylish arcuate-profiled aluminium housing comes in a white enamel finish with sliding brackets that ensure its wall/ceiling installation is perfectly centered on the first time; no second attempts, no do-overs.

White Aluminum Housing

Screen Material

- MaxWhite® Fiberglass (FG) 1.1 Gain Commercial/Residential integrator grade material
- 4K Ultra HD, Active 3D, and HDR Ready
- 4-side black masking borders enhances perceived visual contrast
- Black backed screen material eliminates light penetration for added image brightness
- 20" (51cm) top drop border
- Available in the following diagonal sizes:
 - 92", 100", 110" and 120" in 16:9 format

Design and Installation

- Dual Wall and Ceiling mount installation design
- Premium grade arcuate-profiled aluminum housing with white enamel finish
- Built-in SRM (Slow Retract Mechanism) allows hands-free screen retraction
- Auto-locking mechanism with variable height settings
- Operational lanyard included
- Slideable mounting brackets allow precise installation location
- Includes installation kit with wood screws and drywall anchors
- Optional 6" and 12" L brackets available - **sold separately**
